Extract from the Proceedings of the—. With reference to the instructions contained in paragraph 18 of the general letter from the Honourable the Court of Directors, dated 30th July 1828, and the resolution of Government thereon, the Board take into consideration the state of the abkari revenue at the presidency. From the low prices at which British and foreign European spirits can be supplied to the Madras market, there appearing to be reason to apprehend that, unless checked, they will still further supersede the use of arrack. The Board are of opinion that it is expedient with a view to the protection of the revenue to adopt some measure of the nature of that suggested by the Honourable the Court of Directors. The Board examine the draft of a regulation for subjecting the sale of European spirits within the limits of Madras to certain restrictions submitted by the Collector and observe that were it not for the desire expressed by the Honourable Court, the rate of Sea Custom duty on spirits should not be altered they would have been inclined to recommend as a simpler measure, the imposition of an adequate duty on importation to supersede or take the place of all other taxes on siprits. Extract from the Proceedings of the—. The Board bring to notice the sales of Government salt during faslies 1238 and 1239 the two first years that have elapsed since the monopoly price was raised from Rs. 70 to 105 per garce, the result being a decrease in the quantity sold for Home and Inland consumption in fasli 1238 of garce 4,505 and in fasli 1239 of garce 2,530, compared with the average quantity sold during the preceding seven years and an increase in the proceeds in the former year of Rs. 8,26,358 and in the latter of Rs. 10,60,217 respectively. The Board observe that the period elapsed since the monopoly price was raised, is too short to admit of a conclusive judgment being formed as to the ultimate effects of that measure but that there seems to them no ground for apprehending that the demand for salt will thereby be materially affected on the price to the consumer inordinately enhanced. From the—. Stating in reply to a letter of the 13th instant that in directing the Civil Engineer of the Southern Division to proceed to Cuddapah, the Board acted in accordance with the established usage of the department and on a discretionary authority always possessed of deputing officers temporarily to other divisions than their own which has been done repeatedly without reference to relative rank — that it has never been the cause of annoyance or complaint that the officers concerned have acted cordially without exercising any authority over each other, that the disbursements in Bellary have for several years been high, and that it was wished that the Civil Engineer of the Ceded District should devote as much of his time as possible to that district to reduce the estimate to the lowest scale, that with his view the Civil Engineer of the Northern Division having finished the inspection of work in his own division was directed to proceed to Cuddapah to relieve Captain Campbell for a short time in that district and enable him to devote the whole of his time to Bellary, that Lieutenant Buckle is the senior Civil Engineer and that Captain Campbell from the time of his first employment in the department held the appointment of an Assistant under Engineers who were his seniors in the army. Trusting that this explanation will satisfy Government, that the Board acted in conformity with the rules of the department and without intention to injure the feelings of any officer also representing that the rule of placing the officer deputed to another division under the Civil Engineer of that division will be productive of great inconvenience regarding which states some of the objections, and hoping that the Right Honourable the Governor in Council will permit the present practice to continue.
